This directive implements AFD 90-2, *Inspector General -- Inspection System*. This directive lists compliance items that support guidance in the following: law, executive order, higher headquarters publications, (DOD, JCS, FAA, AFI, AFMAN, etc.). Units will supplement this directive to add internal compliance items. This directive applies to the Air National Guard (ANG). The items listed do not constitute the order or limit the scope of the inspection/assessment. The objective is to identify deficiencies that preclude attainment of required capabilities. Units can supplement this publication to add internal compliance items. This directive may be used in whole or in part by HHQ during visits or exercises. Users may add any items, which, in the exercise of good judgment, requires examination. Send comments and suggested improvements to this directive on AF Form 847, Recommendation for Change of Publication. Send to ANG/XOF, 1411 Jefferson Davis Hwy, Suite 4300, Arlington VA 22202-3231.

1. Critical Compliance Objectives (CCO). Areas that represent “single-point failure” issues where non-compliance would result in dire mission impact or could very likely result in loss of life, serious injury, or significant potential for litigation. CCOs are shown in **BOLD AND ALL CAPS FORMAT**.

2. Core Compliance Items (CCI). Areas that require special vigilance and are important to the overall performance of the unit, but are not deemed “critical”. Non-compliance would result in some negative impact on mission performance or could result in injury, unnecessary cost, or possible litigation. CCIs are shown in ALL CAPS FORMAT.

3. General Compliance Items (GCI). Areas deemed fundamental to successful overall performance of the unit, but non-compliance would result in minimal impact on mission accomplishment or would be unlikely to result in injury, increased cost, or possible litigation. GCIs are shown in lower case.
